2019 will be a great year for Bruemmer Park Zoo. The green fencing above the bobcats will be removed and new fencing installed. New handrails will be installed on the back stairs. The old goat house will be removed and new fence installed. We expect this and the new home for the sheep/goats/deer to be completed in 2019.

Masterplan Update: We are finalizing the detailed plans of the new pheasant exhibit. We are hoping to have enough funds raised to break ground on this Exhibit in the spring of 2020. Be sure to watch our Facebook page and website for updates as they become available
