

Dear Friends and Supporters,

We are standing on the threshold of a historic moment for Bruemmer Park Zoo. Thanks to the incredible momentum we've built together, our vision for a state-of-the-art Environmental Education Center (EEC) is closer than ever to becoming a reality.

We are 85% of the way there!

The support for this project has been nothing short of inspiring. The Kewaunee County Board has shown its belief in our mission by committing up to \$1,600,000 in the 2026 budget. When combined with the generous donations and pledges already received, we have secured nearly \$2,000,000 of our \$2,200,000 goal.

This means we are now only a few hundred thousand dollars away from breaking ground.

Why Your Gift Matters Right Now

The EEC is not just a building; it is the future of animal care and community education in Kewaunee County. To begin construction in 2026, we need to bridge this final funding gap today. Your contribution will directly fund:

- Animal Care: A dedicated veterinary room and a specialized food preparation area to ensure our animals receive the best possible nutrition and medical attention.
 - Interactive Learning: A brand-new classroom and indoor exhibits designed to inspire the next generation.
 - Visitor Comfort: Essential upgrades, including new, modern restroom facilities.
-

Join the Final Phase

We are asking you to help us take these final steps. Whether it is a one-time gift or a multi-year pledge, your support today ensures that we can "hit the ground running" in 2026.

Every dollar brings us closer to the moment we break ground on a facility that will serve our families for decades to come.
